

CONSULTING

Capability Statement

Company Overview

CMSV Consulting is a consulting firm based out of Georgia. Our team has exceptional industry experience and training, allowing for a unique skillset to be presented throughout each organization we have the privilege of servicing.

Our offerings include but are not limited to: accounting support, financial analysis, IT auditing, and strategic planning. In addition to our diverse abilities, our team is comprised of security-cleared professionals with specialized experience in finance, accounting, and IT audits. Our team is also equipped with an array of certifications, including the CPA and CISA designations. With this breadth of knowledge and extensive experience, we are confident in our ability to provide remarkable support and notable results to any number of government entities.

Please contact us for further details on our firm and federal contracting abilities.
